# Income Tax Information and Election

## Federal Withholding

Federal tax laws impose withholding requirements with respect to life insurance and annuity distributions including withdrawals, surrenders, assignments and policy loans, which are considered taxable distributions. We will withhold federal income tax at the rate of 10% from your distribution *unless you elect not to have withholding apply*.

## State Withholding

In addition to federal income tax withholding requirements, some states have requirements regarding withholding of state income taxes. In most cases, you may elect *not to have withholding apply*. We will withhold state income tax when state law requires and at the rate specified by statute.

Even if you elect not to have federal and state income taxes withheld, you are liable for payment of taxes on the taxable portion of your distributions. You also may be subject to penalties under the estimated tax payment rules if your payments of estimated tax withholding are not adequate. Please consult with your tax advisor if you have questions.
